

WELCOME

**Masks are now optional in
BJC HealthCare facilities.**

If you prefer to wear a mask, they are available at our entrance hygiene stations.

Masks still need to be worn when:

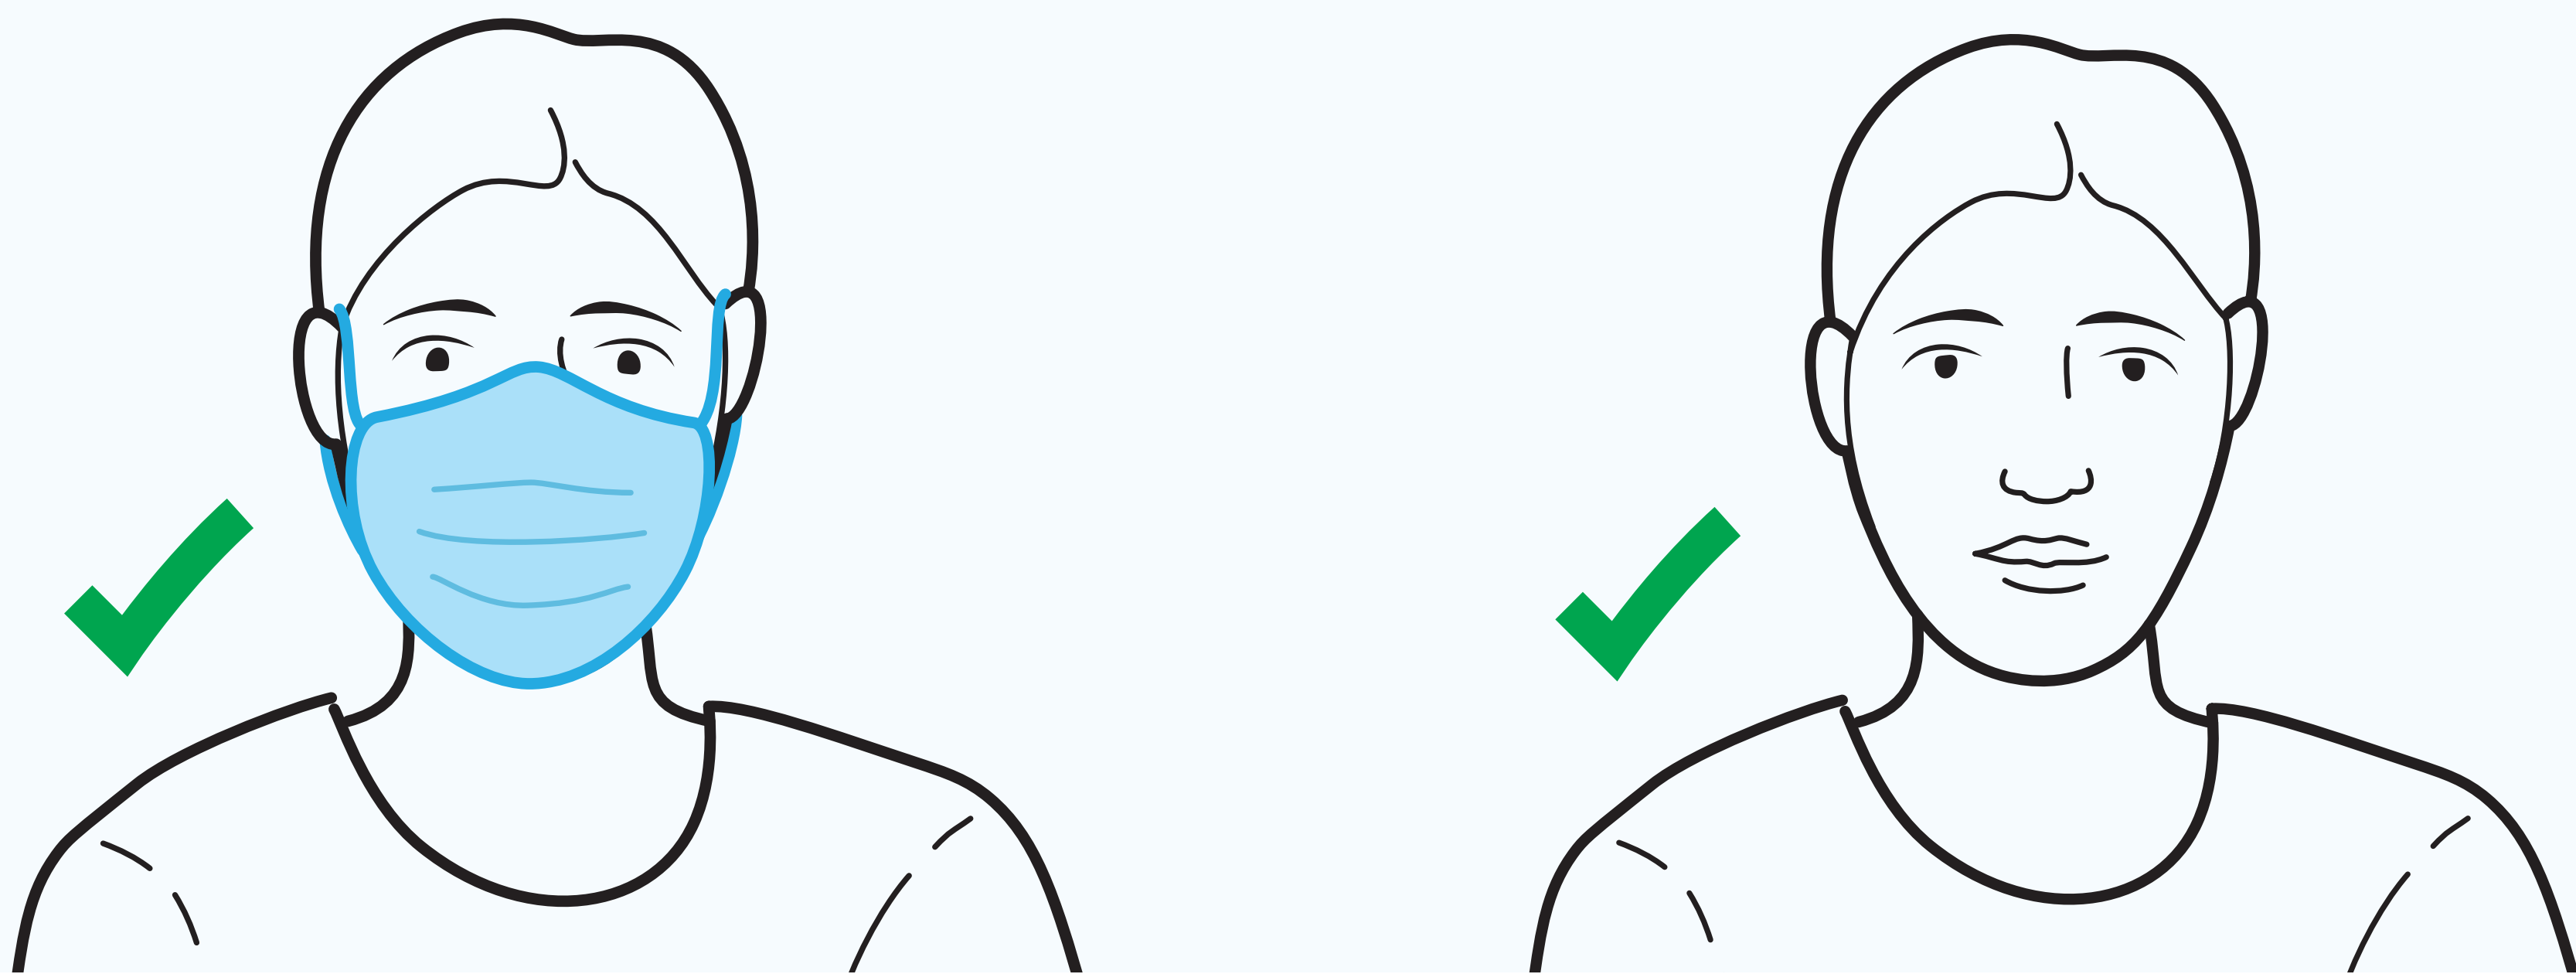

- You have symptoms of a respiratory illness, such as a cough, runny nose, etc., or you have been exposed to someone with such symptoms.
- A patient has a transmissible illness that requires isolation or other precautions. Please follow signage instructions at the patient's room.
- A patient requests that staff and visitors mask in their room. Please tell your caregiver if you want those entering your room to wear a mask.

Thank you for your support.
